

TISDALE RESOURCES CLOSES FIRST TRANCHE OF PRIVATE PLACEMENT

August 18, 2021 – Vancouver, British Columbia – Tisdale Resources Corp. (the “Company”) (TSXV: TRC) announces that it has closed the first tranche of its previously announced nonbrokered private placement through the issuance of 1,850,000 units (each, a “Unit”) at a price of \$0.44 per Unit for gross proceeds of \$814,000. Each Unit consists of one common share and one common share purchase warrant exercisable to acquire an additional common share at a price of \$0.55 until August 17, 2026.

The Company intends to complete a further tranche of the placement for a total offering of up to 2,272,727 Units. Additional information regarding completion of a further tranche of the placement will be announced as soon as available.

No finders’ fees or commissions were paid in connection with closing of the first tranche of the placement. The Company may pay finders’ fees to eligible third parties that have assisted in introducing subscribers to a further tranche of the placement. All securities issued in connection with the first tranche of the placement are subject to a statutory hold period until December 18, 2021 in accordance with applicable securities laws. Completion of a further tranche of the placement remains subject to the approval of the TSX Venture Exchange.

The Company intends to utilize the proceeds from the placement for general working capital purposes, and to complete a ZTEM survey of the primary target at its wholly-owned Keefe Lake Uranium Project. Keefe Lake is an advanced exploration project that covers an area of approximately 15,400 hectares, on the eastern side of the Athabasca Basin, in northeastern Saskatchewan, Canada. A total of 225,000 of the Units issued in connection with the first tranche of the placement were issued on a flow-through basis, and the proceeds of such Units will be utilized for exploration expenses which qualify as “flow-through mining expenditures” for the purposes of the Income Tax Act (Canada).
